

# Welcome Parents

Welcome to Third Grade at Indian Prairie School! I believe that a successful educational career is a team effort. Each member of this special team is equally important to your child's learning experiences, and therefore communication between us is essential. To encourage this, I have compiled this packet of information to let you know about Third Grade at Indian Prairie Elementary School. Hopefully, I will address most of your questions and concerns tonight, but always feel free to contact me at school if you have further questions.

Together I know we can make this school year another great year for your child. I appreciate your continued support!
